EXPERIENCE

The Legacy of HOPE Foundation Tampa, Florida
Social Media Content Creator (Volunteer) Feb 2026 – Apr 2026

- Built and managed a content calendar, reusable marketing assets, and supporting documentation using Google Sheets, Excel, Google Docs, and Canva to streamline campaign planning and execution.
- Managed the organization's social media page and published branded fundraising and engagement content for donors, volunteers, and community members, delivering an estimated **$4,212 in value** to the nonprofit.

University of South Florida Tampa, Florida
Athletics Tutor (Student Assistant) Aug 2025 – May 2026

- Tutored student-athletes in quantitative and business courses, adapting study strategies to individual needs, tracking academic progress and session outcomes.

KASATI Joint Stock Company Ho Chi Minh, Vietnam
Sales Intern May 2024 - Aug 2024

- Conducted competitor and market research to support sales planning, business strategy, and process improvements within the Sales & Planning team.
- Analyzed sales and market data to identify performance trends and created visual reports and dashboards to support stakeholder decision-making.

RSM Vietnam Ho Chi Minh, Vietnam
Intern May 2023 - Aug 2023

- Researched tax regulations and prepared analytical reports and client materials to support advisory engagements and client decision-making.
- Built an interactive internal platform in Airtable to visualize engagement metrics, track project deadlines and responsibilities, and standardize customer-case intake, improving team visibility and workflow organization.

PROJECTS

Global Innovation & Economic Inclusion Analysis | Tableau, Tableau Prep (GitHub)

- Integrated **15+ economic, innovation, and workforce indicators** from the World Bank, IMF, and UNESCO to compare how R&D investment and female inclusion relate to economic performance across countries.
- Built Tableau dashboards that surfaced country-level patterns, including the association between lower gender inequality and higher innovation investment, and translated findings into concise, decision-oriented insights.

Smart Retail Analytics & Decision Support System | Oracle SQL (GitHub)

- Modeled retail data across customers, sales, inventory, products, and stores to enable KPI reporting for revenue, average order value, stock levels, and store/category performance.
- Built analyses that flagged low-stock products, ranked high-value customers, and identified frequently bought-together items, supporting replenishment, retention, and cross-selling decisions.

Business Intelligence & Sales Performance Analytics | Tableau, Power BI (GitHub)

- Modeled **5 linked business datasets**-Orders, Customers, Products, Suppliers, and Countries and created Gross Revenue, Cost, and Net Revenue KPIs to evaluate performance across products, suppliers, customers, regions, and time.
- Designed interactive Tableau and Power BI dashboards that highlighted revenue contribution, profitability trends, and underperforming products/suppliers using drill-downs, parameters, LOD calculations, and time-based analysis.
